What is Astrology?

✗ Fear-based predictions

✓ Logical life-pattern analysis

Jyotishi is the actual word for an Astrologer". In Sanskrit it is called "Daivagya" (the one who knows the Divine is called Daivagya)

Sun is the karaka for light. Jyotish is the second name of lord "Sun" who is responsible for life on this planet.

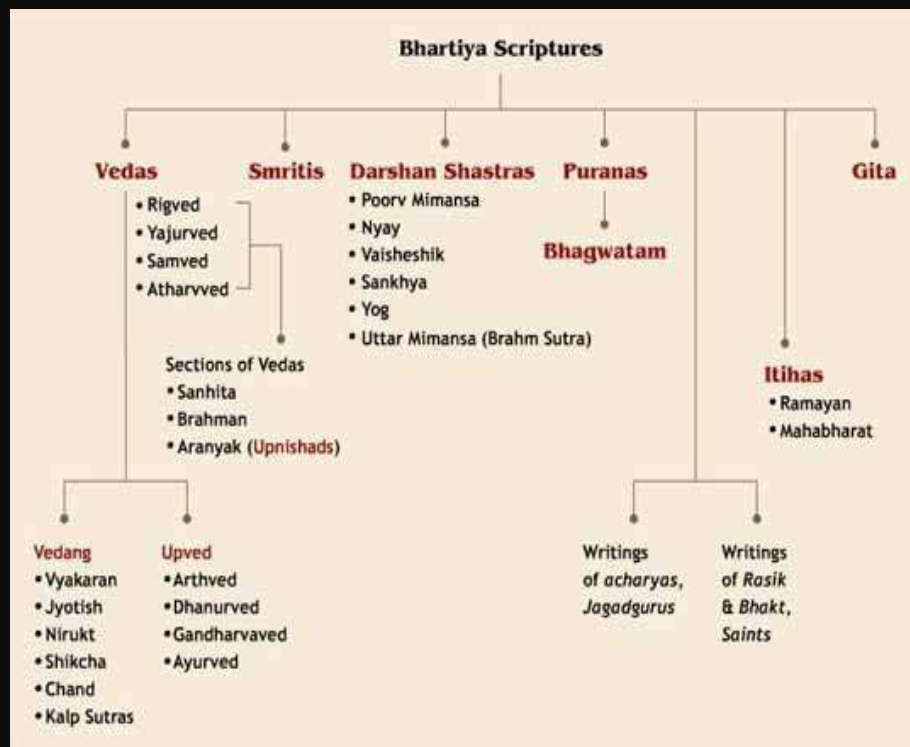

Jyotish means 'A light recognizing the light'

We all are light since in our scriptures "The soul is defined as a light"

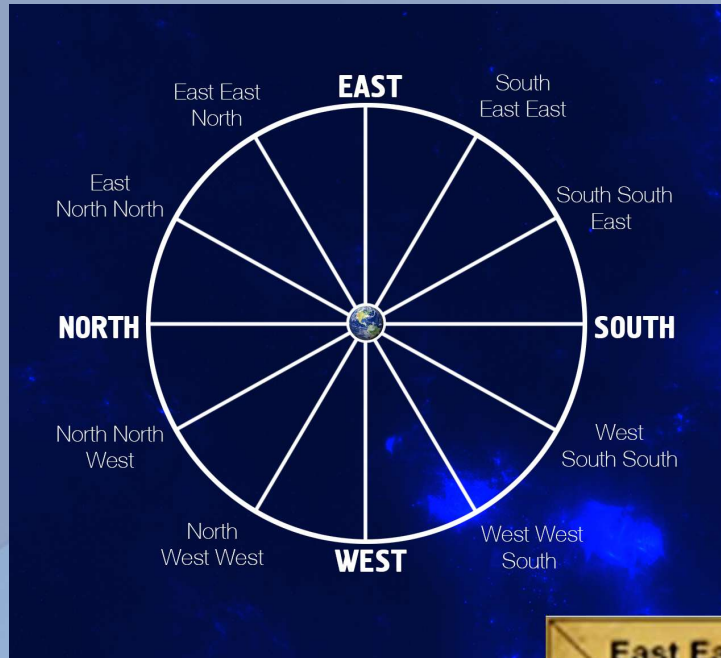

Jyotish in Bhartiya scriptures

- The 4 Vedas:
- The **Rig Veda** talks about all the principles that exist in the world. It has an Upaveda called the Sthapatya Veda.
- The **Yajur Veda** talks about the application of principles. It's Upaveda is called Dhanurveda.
- The **Sama Veda** talks about all the possible rhythms present in the universe. It has an Upaveda called the Gandharva Veda.
- The **Atharva Veda** talks about how everything impacts everything else. It has an Upaveda called Ayurveda.

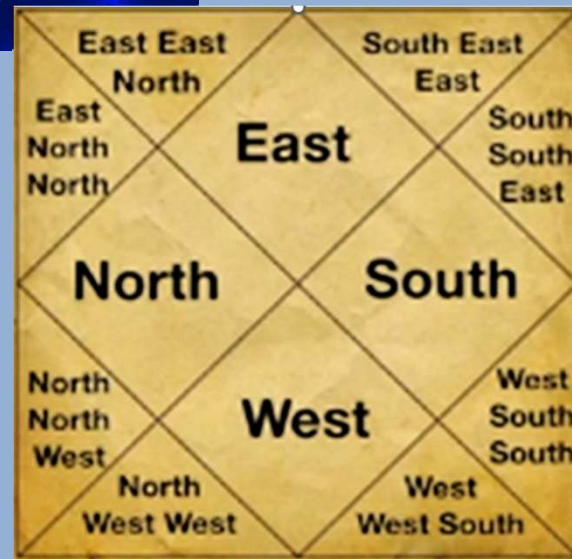

Jyotish - Auspicious time for rituals, astrology and astronomy. This auxiliary Vedic discipline focused on time keeping. Jyotish never talks or encourages akarma (non- action).

How to Cast a Horoscope

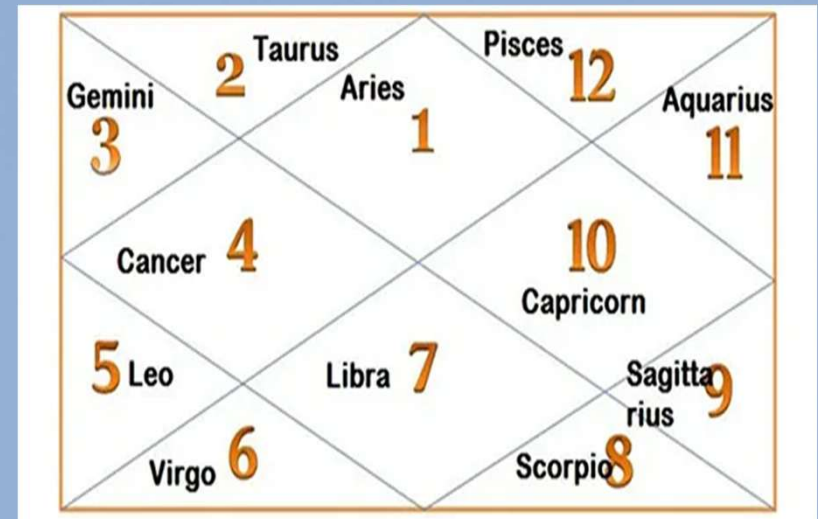

Movement of Sun

- Sun starts in the first house
- In afternoon moves to 10th house
- Sunset comes in 7th house
- Midnight at 4th house
- That mean it travels each house in 2 hours and complete the day in 24 hours.

How to Cast a Horoscope

- In first division we have divided the entire sky into fixed spaces, we have divided them with reference of earth
- Earth is moving. So if we look at one point for some hours, we see different parts of sky because the earth is moving.
- So if we look at eastern horizon, we will see different rashi.
- We have different Rashi's rising in the east at different time.
- After every two hours the Rashi rising changes.
- In North Indian chart the houses are fixed and Rashi's are moving.
- So suppose if at this time <X> is rising, we will place <X> at the east in north Indian chart.

How Predictions Blueprint Works

- Planets = What => Energy
- Houses (Bhav) = Where => Life Areas
- Signs (Rashi) = How => Behavior

What Energy is going to be manifested like anger, Aggression of Mangal and Sorrowness of Shani

Where the energy will manifest like 4th bhav of home or 10th bhava of career

How the energy will manifest in leo way or makar way.

Note - Nakshatra adds more accuracy in the overall prediction
